Lalith Kahatapitiya, Chairman, K.I.K. Lanka (Pvt) Ltd., receives the IESL award from Lanka Hathurusinghe, the outgoing President of IESL, for the Best Local Product displayed at the recently concluded Techno 2000 exhibition at the BMICH.

K.I.K. Lanka wins IESL award at Techno 2000

K.I.K. Lanka (Pvt) Ltd won the IESL award at the Techno 2000 for their engineering marvel in electrical panel building.

The presentation of awards was held at the Galle Face Hotel early this month. Lalith Kahatapitiya, Chairman and Managing Director of K.I.K. Group of Companies received the IESL award.

K.I.K. Lanka (Pvt) Ltd., began operations in 1996 in the Katunayake Export Processing Zone and has been providing their customers with electrical panel boards of high quality standards. From the inception of the company, K.I.K. Lanka used the world renowned "Elsteel" Systems, manufactured in the same Export Processing Zone, by the Danish Company, Elsteel Ltd.

Mr. Kahatapitiya said: "The vision of our organisation is to meet the needs and expectations of low voltage electrical switch-gear and panel board requirements of the customers while offering favourable prices for a guaranteed quality product."

He said "Our success story stems from the dedication to provide total customer satisfaction and create a conducive climate for a pleasant, friendly and self motivating environment for our employees. By

this, we ensure a steady growth of our organisation with quality as our key word."

The company continuously invests in technology and training and dedicated to total quality management in all disciplines from research and development to marketing, manufacturing to after sales service which has created competitive advantages to the company.

The organisation is in the leadership position of the low voltage panel building industry in Sri Lanka, thus becoming the leading LV panel board exporter in the country and has earned a reputation as the most reliable source of electrical panel boards in the South Asian region backed by a highly satisfied worldwide customer base.

The other companies in the K.I.K. Group include K.I.K. Engineering Co. (Pvt) Ltd., whose office and sales centre is in Kalubowila and is the distributor in Sri Lanka for PDL electrical accessories, Elsteel Enclosure Systems, SBB Sace Moulded Case and Air Circuit Breakers, Lovato Contactors and the range of products, Ducati Capacitors and Power Factor Correction Equipment and other electrical components.
